NATURE'S OWN REMEDIES

Congress Spring Water.

Empire Spring Water.

Columbian Spring Water.

NO NATURAL OR ARTIFICIAL COMPOUND has yet been discovered or manufactured, that equals these waters as a specific, prompt, safe and *permanent* cure for many temporary and chronic diseases, as proved by the experience of many thousands who have drank them for years, with the most beneficial effects.

CONGRESS WATER is a cathartic, alterative and diuretic, a wholesome remedy for affections of the Liver and Kidneys, Dyspepsia, Chronic Constipation and Gastric Diseases. It is a most powerful preventive of the formation of Stone Concretions so prevalent in warm climates.

EMPIRE WATER is cathartic, and a valuable remedy for Dyspepsia, Inflammation of the Liver, Diseases of the Skin and General Debility of the System. It is peculiarly adapted to Females as a remedy for many of their complaints, and the most severe cases of Scrofula, Salt Rheum, Erysipelas, &c., yield to its use. As a preventive of Bilious Derangements it stands unrivaled.

COLUMBIAN WATER is a tonic and diuretic of a highly beneficial character, and is a positive remedy for Dyspepsia, General Debility, Irritation and Inflammation of the Kidneys and Bladder and has more especially proved its efficacy in restoring those who have suffered for years from Dyspepsia, and the different diseases it is said to originate, have been entirely cured by the faithful and judicious use of Columbian Water.

These waters are bottled fresh and pure, from each of the above named Springs, in so careful and secure a manner that they preserve all their medicinal value for years, and will be found equally efficacious when drank thousands of miles distant as when drank from the spring.

Beware of imitations and inferior Waters. The corks of all genuine Congress, Empire and Columbian Waters are branded on the side of the cork thus

LIFE ELIXIR!

For the Prolongation of Life.

THE CELEBRATED ELIXIR ABOVE NAMED was introduced in Germany by the said fifteen years, and in that country and throughout Europe became so well known as to render its use almost universal. In this country it has become as much and as justly celebrated as in Europe, many of the most eminent and prominent physicians have not hesitated to recommend its use.

This medicine is composed entirely of vegetable ingredients all of which are known to be efficacious in their action, but in any invigorating to the system. Through its use the natural functions of digestion promoted, the bowels regulated and the blood purified. It is particularly recommended to persons suffering from nervousness and pains. It would be impossible to enumerate all the cases in which a great blessing to are a blessing to the human family in general. It is necessary to say that the use of the Elixir is the cause of the life it gives to many distressing diseases. It takes pleasure, however, in furnishing to any person who desires it the annexed general certificate to which will be found additional testimony of the highest character known and most respected persons.

WHY THE GROVER & BAKER MACHINE

Is the best

1. Is a strong, simple, durable, and less liable to derangement than others.

2. It sews from ordinary spools, and no rewindings are necessary.

3. It sews with equal facility all fabrics, the most delicate and the heaviest, and with all kinds of thread, silk, cotton or linen.

4. Its seam is so strong and elastic that it never breaks even on the bias.

5. It fastens both ends of the seam by its own operation.

6. Its seam, though cut at every stitch, remains as secure as any other seam, and will not rip.

7. Its seam is more plump and beautiful, and cloths it compresses and beauty after washing better than any other.

8. Its seam can be removed in altering garments without RIPPER INSERTION, without picking or cutting thread.

9. Watching and varying the tensions upon the threads, which is necessary with other machines, is in this The tension being once adjusted on the Grover & Baker Machine, any amount of sewing may be done without change.

10. It makes beautiful embroidery without change of thread, and is by far the best machine for making tucks, cords and colors for this purpose. It is the only machine that *feels* embroiderers and sews perfectly.

FOR CLERK OF COURT OF APPEALS.

R. R. BOLLING,

OF FRANKLIN COUNTY.

Decision Upon the Proposition to Call a Convention of the Caucus of the Conservative Democratic Members of the Legislature Held in Frankfort February 6th, 1866.

[For the Louisville Democrat.]

At a meeting of the Conservative Democratic members of the Legislature, held at the hall of the House of Representatives, on the 6th of February, 1866, on motion of W. R. Bradley, Esq., Representative from Hickman and Fulton, it was

Resolved, THAT IN OUR JUDGMENT THERE IS NOW NO NECESSITY FOR A CALL OF A CONVENTION OF OUR PARTY, AND WE WOULD RESPECTFULLY URGE THE PARTY NOT TO CALL A CONVENTION, WHEN NO NECESSITY EXISTS FOR THE SAME.

J. B. BRUNER, Chairman.

D. ROBB,
JAS. A. DAWSON, } Secretaries.

The above expresses the opinion of the Conservative members of the Legislature, by whom the matter was discussed fully, and to whom interested and other parties presented every reason to induce them to recommend a call. We hold that the judgment of this caucus is correct; that any effort to call a convention will tend to disintegrate and break up the party.

The vote on the caucus stood upon the motion of Mr. Bradley, fifty-six against a convention and nineteen for it.

☞ The expulsion of Brooks from his seat in Congress, and installing his competitor, Dodge, in his place, is one of the meanest of the mean acts of Congress. Dodge was the Republican candidate. There was a Democratic nominee, so-called. Brooks belongs to the class of stubborn Old-line Whigs who refused to be sold out to the Republican party. He stood out with Fillmore, Hunt, Grainger and others, who were obliged to act with the Democratic party. Brooks had no convention. He was only the editor of the New York Express, and ran on his principles and personal credit, and it is said used no money to buy his way to his seat. Dodge belonged to the shoddy, had an income of half a million per annum, which is always proof of virtue and decency. In the course of the investigation, it was shown that he had spent six or eight thousand dollars himself, and others for him still more. At any rate, items to the amount of $15,000 were fished out of the witnesses. Then Dodge brought forward witnesses in his behalf, of the most abandoned character, whose testimony shows that they ought to be in the penitentiary. After a medley of testimony, covering about a thousand pages, which no one would take the trouble to analyze, the committee came to the conclusion that they would have reached without any testimony, that Dodge should have the seat. The House was of the same opinion. It was shown that the Democratic candidate so-called was bought to stay on the track for $2,000. Dodge paid the money. The object of this Democratic candidate and his wire-pulling brethren was to elect Dodge. The masses who voted for this bogus Democrat were, of course, sold. After all, Brooks was elected.

But, then, the virtuous Dodge felt that sinners who didn't have as much of God's blessings as he should not win.

The district contained the wealth and fashion of the Fifth avenue, but it also contained a vast multitude of common people who lived in rough places, worked hard and drank bad whisky. Dodge commented on the sinfulness of these people, and the merit of the wealth and morality. He was a member of the church, and said his prayers regularly, fasted often on canvass back, oysters and goodly wines. He did, it is true, give his money to corrupt the ballot-box. He did buy a candidate, and what was worse, the bargain was made and the money paid on *Sunday*.

Still the pious Dodge can thank God that he is not as other men are; not as those workingmen, boatmen and mechanics, who live on scanty fare often, and drink lager beer and bad whisky at five cents a glass.

Never mind, the pious Dodge may make the best of his present term. He will not have the face to contest the next time after coming before the people. He has bought his way once; but he can't repeat the process.

☞ The editor of the Journal rejoices now in the fact that he belongs to no party. He is independent. The people are more apt to hear the truth from an editor who is not the property of a party. We don't know so well about that; some people are hugely given to lying on their own account. We notice, moreover, that the editor of the Journal is not satisfied with this independence. He is going to put out an address for a grand mass-meeting—a great address; and it is to be signed by multitudes of the best men—Union men, good rebels, &c. This looks very much like a fellow was tired of independence, and wanted a party.

☞ We see that he still values the Union as little as he did when he declared that "not another man or dollar" should be furnished to sustain it against the rebel armies, "shouting and thundering in the field!"—*Louisville Journal*.

The Union is only valuable so far as it protects the people who made it, and are taxed for it. According to the forms, this protection is not given to the Southern people, and yet they are taxed. The Journal's idea of a government being something of Divine origin, to oppress and destroy, is its conception of justice.

☞ Acting Governor Smith, of Missouri, has appointed Thursday, the 26th inst., as a day of fasting, humiliation and prayer. The St. Louis Dispatch thinks a day of gratitude and thanksgiving would be more appropriate. Smith, however, thinks otherwise. The elections in the State against the Radicals indicate a great deal of depravity.

☞ We publish this morning the speech of the Hon. Garrett Davis. We hope it will not throw the editor of the Journal into another fit. It will pass in this latitude for an able and patriotic effort. At Washington it appears otherwise, no doubt. They have a different standard of patriotism and treason in that locality.

☞ The Courier fancies we can win in the contest for big ugly. When we look at his insignificance we think he never can be called big in anything; but when we observe its ugliness, we are startled at its magnitude.

☞ The Journal says that we would be willing to back the Democratic party. We will back it against any party the Journal can set up.

☞ The Courier fancies its party a train, of which Dr. Buchanan is locomotive and it the tender behind.

☞ Will Jack-knife of the Courier make further explanations for its Louisville convention? Signing men's names to a paper without their consent may be characteristic of the Courier's party, but popular prejudice is very much against that, and has even made laws to denounce it.

☞ The Courier fancies its little convention to be a train. It is one that should be well switched.

[For the Louisville Democrat.]

SPRINGFIELD, KY., April 12, 1866.

Having sometime back announced myself a candidate for the office of Clerk of the Court of Appeals, subject to the decision of a "Democratic Conservative convention," and having waited until this hour to see whether some action would not be taken by which the Democratic and Conservative parties of the State might be brought to act harmoniously together in a common convention, and being now satisfied that no such action will be had, I withdraw my name as a candidate for that office. Papers that have heretofore announced me will copy this withdrawal. J. P. BARBOUR.

INVENTIONS.—The Commissioner of Patents has invited individuals throughout the country to send to the Patent office busts of authors and inventors, and of all men who were celebrated for mechanical skill or ingenuity—the busts to be of plaster, metal, stone, bronze, or otherwise. To all such busts the Commissioner will assign appropriate and conspicuous positions on the top and front end of each case containing models. Pieces as above described can be found for about two hundred busts.

☞ It is stated that during a recent storm in Wisconsin, the lightning was seen to strike into the lakes in the vicinity of Madison, and masses of ice two feet in thickness were hurled hundreds of feet in the air, like dust before the sweeper; and the latent heat, set free by the change of vapor to liquid, was so great as to raise the temperature in a few hours from below the freezing point to that of summer 72 deg., and preserved it there for nearly twenty-four hours.

THE SPANISH AMERICAN WAR.—It is stated that an ex-Confederate naval officer, who had considerable experience on the Potomac river, is directing the operations of the Chilians and Peruvians in directing shore batteries against the Spanish fleet, which, at last accounts, had blockaded the allied fleet, seven in number, in one of the numerous inlets of the coast near Arenal, from which they cannot escape, and are making efforts to get in and destroy them.

☞ The expulsion of Brooks from his seat in Congress, and installing his competitor, Dodge, in his place, is one of the meanest of the mean acts of Congress. Dodge was the Republican candidate. There was a Democratic nominee, so-called. Brooks belongs to the class of stubborn Old-line Whigs who refused to be sold out to the Republican party. He stood out with Fillmore, Hunt, Grainger and others, who were obliged to act with the Democratic party. Brooks had no convention. He was only the editor of the New York Express, and ran on his principles and personal credit, and it is said used no money to buy his way to his seat. Dodge belonged to the shoddy, had an income of half a million per annum, which is always proof of virtue and decency. After a medley of testimony, covering about a thousand pages, which no one would take the trouble to analyze, the committee came to the conclusion that they would have reached without any testimony, that Dodge should have the seat. The House was of the same opinion. It was shown that the Democratic candidate so-called was bought to stay on the track for $2,000. Dodge paid the money. The object of this Democratic candidate and his wire-pulling brethren was to elect Dodge. The masses who voted for this bogus Democrat were, of course, sold. After all, Brooks was elected.

But, then, the virtuous Dodge felt that sinners who didn't have as much of God's blessings as he should not win.

The district contained the wealth and fashion of the Fifth avenue, but it also contained a vast multitude of common people who lived in rough places, worked hard and drank bad whisky. Dodge commented on the sinfulness of these people, and the merit of the wealth and morality. He was a member of the church, and said his prayers regularly, fasted often on canvass back, oysters and goodly wines. He did, it is true, give his money to corrupt the ballot-box. He did buy a candidate, and what was worse, the bargain was made and the money paid on *Sunday*.

Still the pious Dodge can thank God that he is not as other men are; not as those workingmen, boatmen and mechanics, who live on scanty fare often, and drink lager beer and bad whisky at five cents a glass.

Never mind, the pious Dodge may make the best of his present term. He will not have the face to contest the next time after coming before the people. He has bought his way once; but he can't repeat the process.

☞ The editor of the Journal rejoices now in the fact that he belongs to no party. He is independent. The people are more apt to hear the truth from an editor who is not the property of a party. We don't know so well about that; some people are hugely given to lying on their own account. We notice, moreover, that the editor of the Journal is not satisfied with this independence. He is going to put out an address for a grand mass-meeting—a great address; and it is to be signed by multitudes of the best men—Union men, good rebels, &c. This looks very much like a fellow was tired of independence, and wanted a party.

☞ We see that he still values the Union as little as he did when he declared that "not another man or dollar" should be furnished to sustain it against the rebel armies, "shouting and thundering in the field!"—*Louisville Journal*.

The Union is only valuable so far as it protects the people who made it, and are taxed for it. According to the forms, this protection is not given to the Southern people, and yet they are taxed. The Journal's idea of a government being something of Divine origin, to oppress and destroy, is its conception of justice.

☞ Acting Governor Smith, of Missouri, has appointed Thursday, the 26th inst., as a day of fasting, humiliation and prayer. The St. Louis Dispatch thinks a day of gratitude and thanksgiving would be more appropriate. Smith, however, thinks otherwise. The elections in the State against the Radicals indicate a great deal of depravity.

☞ We publish this morning the speech of the Hon. Garrett Davis. We hope it will not throw the editor of the Journal into another fit. It will pass in this latitude for an able and patriotic effort. At Washington it appears otherwise, no doubt. They have a different standard of patriotism and treason in that locality.

☞ The Courier fancies we can win in the contest for big ugly. When we look at his insignificance we think he never can be called big in anything; but when we observe its ugliness, we are startled at its magnitude.

☞ The Journal says that we would be willing to back the Democratic party. We will back it against any party the Journal can set up.

☞ The Courier fancies its party a train, of which Dr. Buchanan is locomotive and it the tender behind.

Nothing to Do.

A strip of sunburnt linen
Had blundered into stamped with blue,
And the gleam of a threadless needle
Defining the pattern through.
The needle is ready, yet the sweet little Lady
Sits waiting for something to do.

Heaped on the table beside her
Bunches of every line;
Dazzling, silken floss—
The rarest that ever grew.
There are needles and reels while the sweet little Lady
Sits waiting for something to do.

Half hid under flowers a volume
Of richest gold and blue,
Just peep'd as if it would open
At The Mother's Daughter for you;
The book is ready, yet the sweet little Lady
Sits waiting for something to do.

A silent harp in the corner,
Still mute as the sea-girt shore,
Whose music is ready and free
To sing for the asking, or
The harp stands fresh and the sweet little Lady
Sits waiting for something to do.

A sudden want unexplained flutter—
The work is cast upon the floor,
A step in the hall and softly
A sad-eyed lady enters the room;
Heigh-ho! I see, the sweet little Lady
Forgets she has nothing to do.

CIVIL RIGHTS BILL—VETO MESSAGE.

Speech of Hon. Garrett Davis, of Kentucky, in the United States Senate, April 6, 1866.

The Senate having under consideration the bill (S No. 61) to protect all persons in the United States in their civil rights, and to furnish the means of their vindication, which had been returned by the President with his objections—

Mr. DAVIS said:

Mr. PRESIDENT: I intend to say something upon the subject under debate. We have heard the President of the United States denounced in this Senate on this occasion by terms which were lately his friends; by men who have approved of the entire course of the President of the United States up to the time of the introduction of this bill. The President, in accordance with the importunities of men in the senate, and out of it, in addition to the conditions which he urged upon the Southern States, had also required them to confer suffrage by their new organs, those Senators, nor one of their Radical associates, would have made any opposition to the President. He insisted that those States, by provisions in their Constitutions, should prohibit slavery perpetually, that they should accept the proposed amendment of the Constitution abolishing slavery throughout the United States, and that they should repudiate their debt created in the cause of the rebellion, which they, one and all, accepted; and his only, but with them great, shortcoming was that he did not require them to confer upon the freed negroes the right to vote, their objection is not that he had no inherent right to do so, as a rebellion, as to these matters, but that he did not go far enough, and use all his influence and power to force them to extend suffrage to the blacks.

I know, from the best authority, that this last condition was endeavored to be enforced upon him by Senators who are now his friends and supporters in the Supreme Court of the United States; and it was said to him that if he would make this condition a *sine qua non* of the admission of the southern States into the Union, he would thereby secure the respect of him, and satisfy the utmost demands of the party.

I do not approve entirely of the course of the President of the United States in relation to the conditions that he did require of the States to come under. The most satisfactory explanation of that matter is, that the President was brought to the conclusion that duty required him to urge his veto upon both, if proves him to be possessed of the highest order of moral courage, integrity of intellect, and patriotic purpose; and the able and unanswerable arguments against their constitutional provisions, so elaborately and powerfully set forth in his veto message, afford the most satisfactory testimony of his preeminent fitness for the office which he fills. I have a strong conviction that if that honorable Senator had brought to the investigation of these two measures the same impartial and independent research, the same unselfishness and resolute love of purpose, as did the President, he too would have been constrained by the power of truth to have come to the same conclusions. I doubt not that if he is spared to the Senator, as I hope it will be, until the passions and madness that rule the day shall have subsided, that his own reflections will bring him to acknowledge that the President was right and he was wrong.

Mr. President, the title of the act is a report libel of what it is. The title of this act, and its act also, is deceptive. There is a studied want of clearness, a studied ambiguity, I think, in the language in which both are expressed. If I, after the best examination which I can give to this act, was asked for an appropriate title, I would propose to the Senator from Illinois, "An act to abolish and modify all laws, parts of laws, ordinances, regulations and customs throughout the United States, so far as they make any discriminations for the white against the black or colored population thereof; to punish by fine and imprisonment all persons who may enforce such discriminations; and requiring certain officers to inquire, examine and civil proceedings against them, at the cost of the United States." The Senator might object to this, as it is too long. I would say, "An act to consolidate all the reserved sovereignty and powers of the several States into the Congress and Government of the United States." That is concise title, and one which, in my judgment, truly speaks the true character of this bill.

I have heard it plausible, much less any satisfactory, defense of this measure. I have not heard it attributed to any source of power, which, in my opinion, furnishes it with a decent covering. The honorable Senator from Illinois [Mr. TRUMBULL] expected of him, and satisfy the utmost demands of the party.

I do not approve entirely of the course of the President of the United States in relation to the conditions that he did require of the States to come under. The most satisfactory explanation of that matter is, that the President was brought to the conclusion that duty required him

Police Court.

Monday morning arrived, and, as is generally the case, the prisoners' room was filled to overflowing with persons of every color, size, age and condition, who had been arrested for different violations of the law. The majority of these arrested had, during Saturday night and Sunday, destroyed too much "mangle-foot, bust-head, rot-gut," etc., to behave in a civilized community. Most of them, though rather clever when sober, fell from grace while in the bad company of John Barleycorn. The Judge appeared to be in a very excellent humor, and was rather lenient toward thousands who appealed to his feelings.

We were more than pleased to see the clerk, Philip Tomppert, jr., at the court-house, as we thought from what we read in the morning papers that he was so seriously hurt as to be unable to come out of the house. Mr. Tomppert was hurt last little, and is in excellent condition to make his race—if, indeed, he shall have any competitor that will be able to make the contest with him.

The following persons were fined for drunkenness and disorderly conduct: Edward Millett, $5; Hugh Watson, $5; James Kearn, $5; John Tanna, $5; Wm. Bruce, $5; John Bowman, $5; Timothy Reardon, $7; Mike Whalon, $5; Martin Pool, $7; Louis Roach, $5; David Neiseid, $5; Fred. Schueffer, $10; Elias Grant, m. c., $15; and held in $200 for three months. Martha McGill fined $5 and held in $100 for 60 days.

The following persons arrested for drunkenness and disorderly conduct, were discharged: Lawrence, Hawkil, Louis Taylor, Benj. Porter, and Basil Lewis, m. c., and John Gantz.

Thomas Welch was presented as a suspected felon. The charge was withdrawn.

Matt. Seibert, passing a counterfeit U. S. treasury note on Elizabeth Gunjahr. Discharged.

Hugh McCord, stealing a watch from Robert Ballard, m. c. Bail in $300 to answer.

Owen Sullivan, cutting Dennis Basnar with intent to kill. Continued until Thursday.

John Hurts, shooting Fred. Tachel with intent to kill. Discharged.

Jacob Smith, robbing Thos. Chambers of a pistol. Discharged.

Laura Thompson and Mary Coleman, negroes, stealing blankets, &c., from Jno. Letterell. Laura Thompson was discharged, and Mary was held in $300 to answer.

James Love, another negro, was charged with receiving the above goods, knowing them to have been stolen. Bail in $300 to answer.

Wilson Fry, m. c., stealing a pistol, worth over $4, from A. B. Board, another dark skinned American. Bail in $300 to to answer.

Meeting of the College of Physicians and Surgeons.

We were not present at the meeting of this body last night, but learn with pleasure that the college applied themselves to important matters, in which the whole community have a deep interest, and from the consideration of which we look for important results. The previous proceedings of the previous meeting, relative to reporters, were not alluded to, and the college seemed determined to deal with matters connected with the public health and welfare. The President, Dr. Powell, occupied the chair.

Drs. A. Brady, H. F. McNary and J. M. Clemens, of Louisville, and Dr. B. F. Slaughter, of Shelbyville, were elected members.

The subject of the establishment of a medical journal was deferred for special consideration at the next meeting.

Dr. Brandeis called attention to the fact that our schools required too much from their pupils, and cited many instances of disease resulting therefrom.

The President stated that he was glad to hear the subject brought forward.

It was one upon which he had repeatedly expressed his opinion to those in charge of school matters, and he trusted that the college would take action in the premises.

A committee was appointed to report upon the subject and present the matter for the consideration of the proper authorities.

Drs. Brandeis and Hewitt were appointed a committee for that purpose.

Dr. Ronald presented resolutions condemning the practice of landing surgical operations, which were ordered to be printed in the city papers.

On motion of Dr. White the subject of cholera was made the subject for discussion at the next meeting.

On motion the college adjourned.

ADULTERY CASE.—The New Albany Ledger says that William J. Thurman, formerly a government detective at this place, and at various times a candidate for sheriff and city marshal against the Democratic candidate, was Sunday night arrested by officers Rager and Smith, charged with adulterous cohabitation with one Maria Pryne, alias Maria Rolfe. His paramour, the frail Maria, was also arrested, both being found in a house in the upper part of the city, and both were put in jail. Yesterday morning, after being placed by the officers in the custody of the police court, Thurman sued out a writ of *habeas corpus* before Judge Bicknell, setting forth that he was held in illegal durance. The judge decided that he was not, and yesterday afternoon Thurman was being tried in the police court.

PASSING COUNTERFEIT MONEY.—Yesterday morning officers Thos. Ryan and Billy Hardin arrested Matt Sibert upon the charge of passing a five-dollar counterfeit U. S. treasury note upon Mrs. Elizabeth Gntjahr. He was at once presented before the police court, but the evidence not showing the guilty intention, he was released.

GRAND JURY.—The grand jury of the city court yesterday held their first meeting this month. Without returning any indictments, they adjourned to meet again on Thursday, the 24th.

A MORAL CITY.—There was not a single arrest recorded at either of the station-houses up to a late hour last night. Who says that our city is not a moral one?

Harry Thompson Returned Here for safe Keeping—A Trial.

[illegible] Circuit Court, Daniel Tickel, who has been boarding at the house of Newton, who resides near Oakland, left for the South, and it being his intention to return in a few days, he left his trunk in the possession of Mrs. Newton, it being placed in the room occupied by her and her husband, for safe keeping. Last Tuesday, Mr. Tickel returned, and found that $200, which he had left in his trunk had been extracted. The trunk was unlocked, and was in the same condition in which he had left it. Believing that the robbery had been committed by some one in the house, Tickel took out a warrant for the Newton family, and yesterday constables Rutledge and Dorsey arrested Mrs. Elizabeth Newton and daughter, Mrs. Harry Newton, Jane Dolan and Ann Bertram, as the parties accused of committing the robbery. They were at once taken before Squires Clements and Matlack, when an examination of the case was had. From the evidence in the case, it was impossible to tell who had committed the robbery, and the accused parties were discharged.

GENERAL OFFICERS TO BE MUSTERED OUT.—The following major generals and brigadier generals have been ordered to be honorably mustered out of the service, to date from April 30, 1866, their services being no longer required: Major Generals Samuel R. Curtis, Francis Fessenden, Benj. H. Grierson; Brigadier Generals Thos. W. Sherman brevet major general, Jas. B. Ricketts brevet major general, Wm. Sketchum, Jas. H. Carleton (brevet major general), John C. Robinson brevet major general, Henry Prince, George S. Greene (brevet major general), Henry S. Hunt brevet major general, Alfred Sully (brevet major general), Thos. G. Pitcher, Frank Wheaton (brevet major general), John S. Mason, Romeyn B. Ayres (brevet major general), John E. Smith (brevet major general), George J. Stannard (brevet major general), Henry H. Sibley (brevet major general), Patrick E. Connor, Adelbert Ames (brevet major general), Walter Q. Gresham, John M. Corse (brevet major general), John W. Turner (brevet major general), Emory Upton (brevet major general), Wm. F. Bartlett (brevet major general), John B. McIntosh, Joseph A. Haskin, T. M. Harris, Frederick T. Dent, Lewis B. Parsons, Louis H. Watkins. All officers of the regular army going out of the volunteer service under this order, will report for duty with their proper regiments, or to their chief of corps or department within three months from the date of muster out of the volunteer service.

All officers belonging to the personal staff of the general officers above named, will immediately return to their appropriate duties if belonging to the regular army or volunteer force still retained in service—all others will be honorably discharged, to date from the time of muster out of the officers with whom they may be serving.

It will be seen, by reference to the list of names above, that our present post commander, Gen. L. H. Watkins, is included in the order.

MIKE LIPMAN'S COMBINED CIRCUS AND MENAGERIE.—To-morrow will be the first day of the mammoth combination in Louisville. The juveniles are in a hilarious state of excitement over the advent of the acting bears, the performing dogs, the trained horses, the learned bull and the educated mules. Children of a larger growth are anxious to see Holland in his wonderful assort of a spiral column upon a globe, and all who have seen Eaton Stone in days gone by will be delighted to see again those feats of unrivaled horsemanship that placed him at the head of the profession. Everything about this show is on the most liberal scale. More than seventy-five performers appear at each and every exhibition. Five clowns, headed by the irrepressible Lipman himself, who is a fine talker, witty, chaste and original, are enough to amuse any crowd even if it is five times as large as the usual attendance at a circus. The outside parade, on the first and every succeeding day, is on a scale of magnitude that well corresponds with the other features of the sextuple combination. The whole material of the establishment, actors, both human and quadrupedal, wagons, cages, and the superb model monitor forms an imposing procession that moves in complete accord with the splendid music of Meuter's unexcelled band. Come on, Lipman, if we don't turn out "three hundred thousand more" to see the big show we will do the best that our census will permit.

LOUISVILLE THEATER.—Last night was performed the play of "Nary a Brogue," for the fourth time, to a crowded house. To-night Mr. Keller, the estimable acting manager of the Louisville has a complimentary benefit given him. No gentleman of the company deserves more credit than Mr. Keller. During his stay in our city, though scarcely a year, Mr. Keller has made many friends by his gentlemanly deportment and accommodating spirit. Although Mr. Keller has had the position of stage manager, so trying to the patience and disposition, we can safely say that he has not a single enemy. The Florences, with their usual kindness, have, together with the entire company, generously volunteered their services. The proprietor gives him the house, and we are confident the public, who must acknowledge their indebtedness to Mr. Keller for his untiring and successful labors, will not fail to be present on this occasion. Three excellent pieces will be performed. For the first time in this city "Merry Monarch, or the Fast Men of the Olden Time;" also the splendid Protean play of "Thrice Married," in which Mrs. Florence appears in five different characters, all to conclude with the laughable piece of "Jumbo Jim." Let all lovers of fun be present.

A RARE INVENTION.—A gentleman in this city has just perfected a varnish to preserve gut. Gilding has been in popular use as far back as ancient Carthage, but it has been reserved for our progressive age to invent a suitable protection for this delicate work which is in no degree less valuable than the original invention of gilding. We have seen the new composition thoroughly tested, and find it to answer admirably the purpose claimed for it by Mr. Graves, the inventor. Our successful citizen may well be complimented upon his ingenuity, which, in this instance, is crowned with a rare triumph.

COFFIN'T UNDERSTAND.—During the examination of Hugh McCard before the police court, yesterday morning, a witness by the name of Altman was examined, through the interpreter. Mr. J. W. R. Smith, the attorney for McCord, asked the witness one or two questions, which were answered in broken English. He continued to question the witness, who commenced talking German at a rapid rate to Mr. Smith, who, not understanding the witness, told him to set down. There was a considerable laugh in the court room over it.

ACCIDENT.—About 2 o'clock last evening a number of small children were amusing themselves by jumping in and out of a wagon standing on Market street, between Jackson and Preston. Just as three or four of them got into a wagon, the horse attached to the same took fright and started off. The jar caused by the sudden start threw Adam Bachman, a little boy about four years of age, out, by which he was badly hurt.

A correspondent writing from Shelbyville, Kentucky, under date of 16th instant, says that Terrell, with a party of his confederates, since his release from the Spencer county jail, has visited Mr. Eden and Harrisonville. He is swearing vengeance against a number of citizens of Shelby and Spencer counties. Our correspondent asks has the Governor offered a reward for the arrest of Terrill? We do not know that he has.

The April term of the United States Circuit and District Court, for the District of Kentucky, commenced in Covington yesterday.

School Matters. First Meeting of the new Board of Trustees—Its Organization.

The first regular meeting of the new Board of School Trustees was held at the Council Chamber at the usual hour last evening. When the roll was called all the members answered to their names except J. Gosnell, from the First Ward, G. P. Mosier, from the Second Ward, Henry L. Pope, from the Eighth Ward, and D. McCullough, from the Twelfth Ward.

The members present were sworn in by Esquire Clements.

Mr. J. L. Danforth, from the Seventh Ward, was elected President without opposition.

Upon taking the chair Mr. Danforth thanked the board for the honor conferred upon him. He alluded, in feeling terms, to the absence of many old, familiar faces, and, at the same time extended a hearty welcome to the new members. He spoke of the duties of a trustee, and expressed a hope that all would do their whole duty, and act for the best of the noble cause which they have in charge.

After Mr. Danforth closed it was announced that the election of Vice President was in order, and Mr. Oliver Lucas was elected without opposition.

Messrs. G. W. Morris, J. Clements, and W. E. Robinson, the ex-presidents of the board being present, were invited to take seats on the President's stand, which they did.

A motion was made to suspend the rules in order that the subject of changing the hour of opening the public schools might be taken up.

A motion was then made to so amend the rules that the school hours, which are now from 8 to 12 o'clock, and from 2 to 5 o'clock, be from 8½ to 12 o'clock and from 2 to 4½ o'clock, thus shortening the time one hour each day.

Mr. Lucas offered a resolution that a committee of three be appointed to report the practicability of adopting a compulsory course of education in this city. The resolution was carried, and Messrs. Lucas, Wellman and Vaughan were appointed.

A resolution passed instructing the building committee to partition the rooms in the second stories of the Fifth and Tenth ward schools.

A resolution passed authorizing the trustees of the Tenth ward to rent an additional room for that school.

The resignation of Edward Field, as teacher in the Portland school, was received.

The secretary was authorized to report at the next meeting of the board the number of city bonds the board has unsold, the number sold and the prices at which they were sold.

At a previous meeting of the board a resolution were passed that Mr. M. T. Brown and Miss Gould be employed to instruct the teachers and scholars in the ward schools in physical gymnastics, at a cost of $160 for two months. The motion to reconsider was adopted. The following was then offered as a substitute:

Resolved, That Mr. M. T. Brown be employed to teach exercises and vocal culture to the high and grammar schools, and that assistant be employed in each primary, exercises in the back ward and music for the period of two months, at a total cost of $60.

The resolution was adopted.

The following committees were then announced:

Finance—Vaughan, Miller and McDougal.

Salaries and Supplies—Lucas, McCullough and Leach.

Buildings—S. J. Hare, Stoll and Monroe.

Eschoats and School Property—Pope, Gosnell and C. Hare.

Library—Danforth, Elliott, Stoll, Leach and Gilpin.

Examination and Course of Study—McCullough, Ramsey, Hebel, Gilbert, Pansy and Watts.

High Schools—Danforth, Pope, McCullough, Murray and Penny.

Grammar Schools—Ramsey, Gilpin, Mebougal, S. J. Hare and Monroe.

Primary and Intermediate Schools, E. D.—Elliott, Wellman and Gosnell.

Primary and Intermediate Schools, W. D.—Eichrodt, Monroe and C. Hare.

German Schools—Hebel, Eichrodt and Mosier.

Penmanship—Mosier, Vaughan and Leach.

Grievances—Monroe, Elliott and Eichrodt.

Rules—Murray, Gilbert and Wellman.

Vocal Music—Miller, Ramsey and Lucas.

Gymnastics—Gilbert, Watts and Mosier.

A motion was offered that the building committee be instructed to contract for the two new school buildings to be erected in the upper wards. The resolution passed.

Jno. A. Miller and R. A. Watts, from the Sixth Ward, each being new members, drew straws to see which was entitled to the long and which to the short term. Mr. Miller proved unsuccessful and so holds for two years and Mr. Watts for but one.

The chairman of the building committee stated that Mr. Hale was the lowest bidder for the First ward school, his bid being $25,000, and that Mr. Montgomery, the builder of the Thirteenth ward school, was the lowest bidder for the Third ward school, his figures being $24,850. The committee were instructed to contract with those two bidders.

The board then adjourned to meet on the first Monday in May.

BURGLARS ABOUT.—Between 4 and 5 o'clock on Sunday morning, some during burglars effected an entrance into the house of Mrs. Downing, on First street, between Gray and Broadway, and went into the sleeping apartment of Mr. Coyle, and carried off a lot of time clothing. The thieves were not very choice about what they stole. They evidently designed going to house-keeping, as they carried off a lot of cooking utensils from Mrs. Downing's kitchen. The same party also made an attempt to get into the grocery on the corner of First and Broadway, and partially succeeded. They opened a back hall door, but the grocery door baffled their ingenuity. They also tried to get into the residence of Mr. Spiegelhalder, in the same neighborhood, but were frightened off by a servant girl, who fortunately happened to be awake. The only booty they gained at Mr. Spiegelhalder's was the contents of the chicken-coop.

SUDDEN DEATH.—Never was the saying "in life we are in the midst of death" more truly verified than on yesterday morning. A shoemaker, by the name of Cline, who resides on Grayson street, between Eleventh and Twelfth, left his house and went to a grocery store near by to settle a small bill which he was owing. He started to return home, but before he reached his house he fell a corpse in the street. The husband and father, who but a few minutes previously left his family in full health and excellent spirits, was returned to them a corpse. The feelings of the terror-stricken family can be better imagined than described. The cause of his death was, no doubt, apoplexy.

The following sales were made by the marshal of the Louisville chancery court on April 16th, 1866:

BURNETT'S TOILET PREPARATIONS AND FLAVORING EXTRACTS were submitted, years ago, to the public, in the belief that their *quality* would insure them success, in this the proprietors were not disappointed. 21

FREEDMEN'S BUREAU.—Colonel C. H. Frederick, 5th veteran reserve corps, has been assigned to duty as superintendent of the bureau in this city and county and has formally assumed charge of the office.

Yesterday a wagon-broke down on the railroad track at the corner of Jefferson street, which retarded the progress of the Jefferson street cars. Four of them were at that corner at one time.

Letter from Pulaski, Tenn.

PULASKI, TENN., April 10, 1866.

Messrs. Editors: Captain Tom Moore put me off the train, at this place, and I have hung up my hat at the Tennessee House. This once thriving and prosperous place now wears a Sunday-like appearance, and business seems to be dying a natural death on account of the scarcity of money in the country. Planters are mostly idle on account of the aristocracy of the negroes, which freedom has planted in their thick skulls. There will be some cotton raised, and, perhaps, a good deal of corn; but some people think they will experience some difficulty in obtaining hands to gather in their crops when the time comes. Most of the business men of this place are composed of men who emigrated here after somebody else did the lighting, and they having made all they can are preparing to "sell out cheap for cash" and go home. It will be some time before the people of this section will be able to resume their business as in days of old.

Of course Pulaski has got more than the usual compliment of lazy, worthless negroes, a large number of whom belonged to other citizens outside of the county and State, and, as a natural consequence, there is established here one of those dirty, insignificant institutions of the ebony furniture—a free-hearted Freedmen's Bureau. It is run by a man who professes to be a Christian, and who, before the war, was much thought of as a man, but now, in the estimation of everybody who has any respect for themselves, he is less respected than the negro over whom he seems to have such a watchful eye. In short, he is a perfect *nobody*—one of old Brownlow's left hands, who goes and comes at his bidding as a dog follows his faithful master. The bureau is a nuisance! If it was removed and all military restrictions withdrawn, I think the negroes of the South would go back home to their masters and go to work with a will; but so long as the negroes hang around it, gaping hungrily into the looking glass of expectation, while these "bosh" promise them "something in the future," they will never settle down in peace, and will eventually become an extinct race in the Indian race. As an example as to what freedom is doing, I will state that there are about twenty-five thousand negroes being fed in this place before the criminal court closed with another, arson, robbery, rape, &c. There seems to be no appetite whatever for them.

The remains of Major Barbour, C. S. A., who was killed at the battle of Resaca, was buried at this place yesterday. The funeral procession was a solemn one to behold—made up of Masons, citizens and carriages. Major Barbour taught school here before the war, being a northern man, and had won a large circle of friends in the city, but he remained until the war broke out. He married an accomplished lady near here, and on the following day of his marriage he entered the rebel cause, which resulted in his being killed as above stated.

The criminal or circuit court is in session here. Nearly every criminal before the bench is negro.

Brownlow has no friends in this section of country. I have not heard a single man speak a word of praise in his behalf since I left Kentucky. Browny is a "D. D."

If the military rule of power, and freedmen's bureaus were removed from the South, I am convinced that the southern people would return to their allegiance in short order. They are a law-and-order abiding people, and I cannot see how it is possible for the peaceably contents to grow over them, after they have quietly returned to their homes, and desire to live in peace, prosperity and happiness. It is cowardly in them to do so, and I will remark this in fact, that these "crowers"—these "game cocks"—are not suppose for the fighting stock of the federal army, but a certain class of the "chicken" kind, who never even "smelled gunpowder." So the fighting stock have imitated their leader, viz: man. They have done the hard work and are going like men, to mind to their business, and not play the "military boy," to crow over work that other men have done. There is certainly class of the Pulaski school, who seem to be looking for the "*last* almighty dollar" they can lay hands upon. The people of the South are not the slaves of military arrogancy, for most of them do not endorse President Johnson and his policy.

The Democrat is gaining public favor fast, and I am satisfied that if Mr. Harney's shed-horse of the true democratic party will continue his course, he will be sustained and applauded by every true lover of his country. Motto, "SAM."

From the New York Herald:

DERINGER PISTOL—CAUTION TO MANUFACTURERS AND DEALERS.—The Deringer pistol, celebrated for more than half a century as the most deadly weapon in existence, has for some years been extensively counterfeited both in America and Europe, the imitations having been sold and circulated in various parts of the country, principally in New York, as the genuine Deringer pistol. Some of these bogus dealers and manufacturers have circulated reports that the undersigned, the original inventor and maker of this world-renowned weapon, is deceased; that there are no genuine Deringer's made; that the imitation is superior to the original, &c., &c. It has also been brought to my notice that a new breech-loading pistol called the Deringer under a Moore patent is offered for sale in New York and other places, and inasmuch as with my name, have been publicly exhibited in order to secure the sale of a pistol entirely unknown to me. In view of the facts set forth above, the undersigned gives a first and final notice to all dealers, manufacturers and others, that it is his intention to rigidly prosecute to the fullest extent of the law, and he has done in the State of California, for which he has been awarded heavy damages, all such as may persist, on and after this date, in using his name or trade-mark, or in any manner whatever infringing upon his rights as the sole manufacturer and inventor of the weapon. He also takes this method of informing the public that he has appointed in addition to his agents Messrs. Curry & Bro., San Francisco, and Messrs. Wolf & Darringer, Louisville, Ky.; and his sole agents in the Eastern cities are the well known firm of Messrs. Tiffany & Co., 550 and 552 Broadway, New York, who will always be supplied with a varied assortment of the genuine "Deringer pistol," which are stamped on the lock-plate and breech with my name.

SUNDAY NIGHT'S DISPATCHES.

FROM EUROPE.

A Royal Autograph Letter to Mr. Geo. Peabody—Commercial Affairs in France—Austrian and Prussian Affairs—The Rebels Completely Routed in China.

NEW YORK, April 15—P. M.

The Saxonia, from Hamburg, via Southampton on the 4th inst., has arrived.

The United States frigate Canandaigua was daily expected to arrive at Southampton.

A royal autograph letter has been sent to George Peabody, Esq. The Queen hearing that Mr. Peabody was about leaving for America, has written him how deeply she appreciates the more than princely munificence by which he has sought to relieve the London poor. A baronetcy would be conferred on him, but he felt debarred from accepting such distinction. The Queen presented her miniature as assurance of her personal feelings.

The anticipation of war between Austria and Prussia made a most unfavorable impression upon commercial affairs throughout France.

The anxiety, instead of being diminished by an elaborate article in the Constitutionnel, said to have emanated from the foreign office, has increased on account of apprehension that European powers if war France cannot, even if she would, maintain neutrality.

The official Gazette publishes the contract concluded between Portugal, France, Brazil and Italy for a telegraph to America.

Austria and Prussia.—The Prussian note to the minor German States says Austria, without any provocation on the part of Prussia, has ordered an armament of a threatening character, which compels Prussia to arm also. Prussia now seeks guarantees for her security, has negotiated vainly endeavored to obtain them by means with Austria. Von Bismark asks the support of the minor States in the event of being attacked by Austria.

The Vienna journals describe war as inevitable.

Brussels intelligence states that Bismark's attempt will be to make over the Middle States to Prussia entirely.

Austria recalls all soldiers on furlough. Several minor German States have received to observe neutrality.

The Austrian Ambassador at Berlin has presented a dispatch declaring that the designs of Austria were peaceful, and that its military preparations were made with no hostile intent, but because the withdrawing his troops and Maximilian is substituting Austrian and Belgian recruits.

Some excitement has been caused here by the discovery within a few days of some gold quartz about fourteen miles from here, on the Potomac.

Herald's Paris dispatch special, of the 6th, says the armed Fenians captured an English revenue flag on Indian Island last night. They belonged to the Fenian privateer, from which they lowered a boat and proceeded, with muffled oars, to the spot, under the guns of the English war ship Pylades, and in reach at any moment of the picket boats. The flag was surrendered without a shot being fired. It is reported there were no soldiers on the island.

The United States gunboat Winooski arrived this morning and anchored off the town.

Several Cadets from Calais say ten of the volunteers from St. Stephens threw down their arms in revolt, but were put under arrest.

A steamship long was captured last night off the coast by the United States revenue cutter Aeschusit, and was towed into the harbor here to-day.

The Herald's Berlin correspondent says the public indignation in regard to the sacrifice of Murphy and others is so great that it is spread all over Canada, and even extends to the interior of the North. Fifty thousand of the latter are said to have been slaughtered or captured.

FROM NASHVILLE.

The Great Fraud Case—Bruner's Trial to Begin at Once.

NASHVILLE, April 15.

Raining steadily all day. Four feet on shoals, and rising slowly.

The military court martial convened in this city will commence the investigation of alleged frauds which have occurred here during the war in the quartermaster's department. Brigadier General Allen, Colonel Sawtelle, and Lieut. S. O. Voris, 5th Iowa regiment, is judge advocate.

Lieutenant Colonel W. H. Clune, judge advocate for the department of Kentucky, arrived here to-day, and it is reported that he will assist in the prosecution. Henry Bruner's case, formerly superintendent of corrals, will be the first one tried. The charges and specifications cover forty-seven pages of legal cap.

A large number of witnesses are here, both for the prosecution and defense. Major H. C. Blackmore, assistant, and Major Courtney, counsel for the defense, also Hon. E. H. East.

Mr. W. J. Cotts, an important witness for the Government, has returned to-day from Wheeling, Va. An order has been received from the Secretary of War to retain in service all the officers who comprise this court together, notwithstanding their regiments are mustered out.

FROM WASHINGTON.

A Collector for New York—The Trial of Jeff. Davis—The Trial of Civilians by Military Commission Illegal.

WASHINGTON, April 15.

It is probable that the President this week will nominate a Collector for New York.

The House Committee on the Judiciary are engaged upon the subject of the resolution recently referred to them, resolving the question as to whether any additional legislation is necessary to procure the trial of Jeff Davis. No action of proceedings will be instituted pending the consideration of this matter by Congress.

The Supreme Court of the United States, having decided the Indiana Military Commission for the trial of civilians to be illegal, and the persons convicted by it having in consequence been discharged, there is no doubt that steps will soon be taken to procure the release of Dr. Mudd, Arnold, O'Laughlin and Spangler, convicted of conspiracy on the life of President Lincoln.

FROM NEW YORK.

Anniversary of the Death of Mr. Lincoln—The Strikes in the City—No Cholera at Key West.

NEW YORK, April 14.

There are commemorative services of the anniversary of the death of President Lincoln in all the principal churches in the city. The Academy of Music is filling at half-mast from all the public buildings and the shipping in the harbor.

The anniversary of the raising of the Union flag over Fort Sumter was celebrated last night by the Sumter Club, in Brooklyn.

The car drivers' strike still continues, but the public are becoming more reconciled. The ship caulkers and carpenters strikes are also holding out.

There is no truth in the reports that the cholera, or other epidemic, exists at Key West, Florida.

FROM NEW YORK.

The Strikes—Attempt to Arrest Mosehy.

NEW YORK, April 16.

The car drivers' strike continues on all the roads. An occasional car is running on Sixth avenue. It is rumored that the drivers are meeting to-day, and that demonstrations will be made to-day or to-morrow to stop the track. The police are stationed in the various precincts where the drivers congregate.

Labor rate is now falling.

The brewers of the second-avenue brewery publish a card this morning stating that the company, in the last five years, has cost over $12,000.

The carpenters are striking for a reduction in the number of hours for labor, have published an address to the ship-owners, ship-owners and underwriters of the port of New York, stating that the extra labor is made in consequence of the changes of the master shipwrights, and not the rental charges of the caulkers themselves.

The funeral of Brigadier General J. Lyman Van Buren took place in this city yesterday.

The Tribune's Washington special says that an attempt was made last week by the Federal troops stationed at Leesburg to arrest the notorious guerrilla, John G. Moseby, by appearing on the street dressed in confederate uniform. Moseby took no notice of the wounds, thinking the guards, who fired several shots.

The Northern Pacific railroad company, whose projected route runs from Minnesota to Oregon, and the Pacific coast, are asking Congress to guarantee the interest on $20,000,000 of their bonds to run twenty years.

The U. S. steamer Augusta is to be sent to Mexico to prevent any violation of neutrality laws by Fenians.

Troops in Mexico—Gold Discovery Flag by the Fenians—Capture of a Suspicious Brig.

NEW YORK, April 16.

A Washington special says the official evidence is that Louis Napoleon is withdrawing his troops and Maximilian is substituting Austrian and Belgian recruits.

Some excitement has been caused here by the discovery within a few days of some gold quartz about fourteen miles from here, on the Potomac.

Raining steadily all day. Four feet on shoals, and rising slowly.

The military court martial convened in this city will commence the investigation of alleged frauds which have occurred here during the war in the quartermaster's department. Brigadier General Allen, Colonel Sawtelle, and Lieut. S. O. Voris, 5th Iowa regiment, is judge advocate.

Lieutenant Colonel W. H. Clune, judge advocate for the department of Kentucky, arrived here to-day, and it is reported that he will assist in the prosecution. Henry Bruner's case, formerly superintendent of corrals, will be the first one tried. The charges and specifications cover forty-seven pages of legal cap.

A large number of witnesses are here, both for the prosecution and defense. Major H. C. Blackmore, assistant, and Major Courtney, counsel for the defense, also Hon. E. H. East.

Mr. W. J. Cotts, an important witness for the Government, has returned to-day from Wheeling, Va. An order has been received from the Secretary of War to retain in service all the officers who comprise this court together, notwithstanding their regiments are mustered out.

FROM WASHINGTON.

Opinion of Judge Underwood.

WASHINGTON, April 16.

Judge Underwood, Judge of the U. S. District Court for Virginia, has published a card to correct a perverted report of one of his recent opinions in a habeas corpus case. Judge Underwood says:

"In the opinion I did not express a doubt of the legality of the late peace proclamation, nor was I legally called in question in any one connected with the case; nor did I express the opinion that the writ of habeas corpus could not be executed in one State while it was not suspended in another, but the very contrary opinion. My opinion simply was, that the late peace proclamation did not revoke the previous proclamation of President Lincoln, suspending incertain cases the writ in the States lately in insurrection, and stated that the peace proclamation did not include Texas, and it had and was not intended to have so broad and general an application as the petitioner supposed, and, therefore, refused to grant his prayer."

FROM NEW YORK.

Anniversary of the Death of Mr. Lincoln—The Strikes in the City—No Cholera at Key West.

NEW YORK, April 14.

There are commemorative services of the anniversary of the death of President Lincoln in all the principal churches in the city. The Academy of Music is filling at half-mast from all the public buildings and the shipping in the harbor.

The anniversary of the raising of the Union flag over Fort Sumter was celebrated last night by the Sumter Club, in Brooklyn.

The car drivers' strike still continues, but the public are becoming more reconciled. The ship caulkers and carpenters strikes are also holding out.

There is no truth in the reports that the cholera, or other epidemic, exists at Key West, Florida.

The Funeral of Hon. Daniel S. Dickinson.

BINGHAMTON, N. Y., April 15.

The closing obsequies of the late Daniel S. Dickinson were performed this evening. The distinguished statesman was buried in accordance with the rites of the Episcopal Church. The funeral took place on the home of the deceased, on Chenango Orchard, and was witnessed by upwards of 6,000 people. The funeral cortege was composed of many distinguished and prominent gentlemen from all parts of the country—members of the Legislature, bar, the village authorities, the Masonic fraternity and the firemen. Special trains were run on the Erie road for the accommodation of relatives and friends of the deceased. The body of the lamented dead was deposited in a vault in the cemetery on the outskirts of the village known as Spring Grove.

Maj. Gee's Trial to Continue.

NEW YORK, April 16.

Latest news from Hillsborough, N. C., says that the trial of Major Gee by military commission, for cruelties to Union prisoners at Salisbury, will continue undisturbed by the President's recent proclamation.

FROM MAINE.

Fenian Matters at Portland.

PORTLAND, ME., April 15.

All is quiet. Last evening the one hundred cases of guns refused carriage by the steamship company on Thursday, were shipped on a schooner to Eastport. Last evening preparations were made for the reception of 450 Fenians, who left Boston yesterday afternoon.

FROM BALTIMORE.

Union Meeting in Westminster.

BALTIMORE, April 15—P. M.

A large Union meeting was held at Westminster, Carroll county, Maryland, on Saturday. Speeches were made in relation to the differences between the President and Congress, by Senator Nye, and Representatives Francis Thomas, John L. Thomas, jr., and Samuel Mckee.

YESTERDAY'S NOON DISPATCHES.

XXXIXth Congress—1st Session.

WASHINGTON, April 16.

HOUSE.

The first business in order was the call of States for bills and joint resolutions.

Mr. Ould, of Indiana, introduced a joint resolution to restore the habeas corpus in the several States. Read twice and referred to Committee on Reconstruction.

Mr. Jenckes, of Rhode Island, introduced a bill providing for the election of members of Congress. Referred to the Committee on Reconstruction.

Mr. Wilson, of Iowa, introduced a bill authorizing non-residents to hold. Read twice and referred to the Committee on Judiciary.

Mr. Payne, of Wisconsin, introduced a bill providing for the transportation of troops around the falls of Niagara, which was read twice and referred to the Committee on Roads.

Notice to Bidders.

Notice is hereby given that the Board of Commissioners of the Louisville and Portland Canal will, on the first day of each month, during the present year, receive sealed proposals for the supply of such articles as may be required for the use of the Canal during the month, and the bids will be opened at the office of the Canal Engineer, on the first day of each month, at 12 o'clock, M., in the presence of such bidders as may attend. The Board reserves the right to reject any and all bids.

Specifications can be had at the office of the Canal Engineer, on application.
